

# **STRATEGIC PLANNING**

**SEPTEMBER 11, 2018**

# Strategic Planning Purpose

TO CHART A PATH  
FORWARD

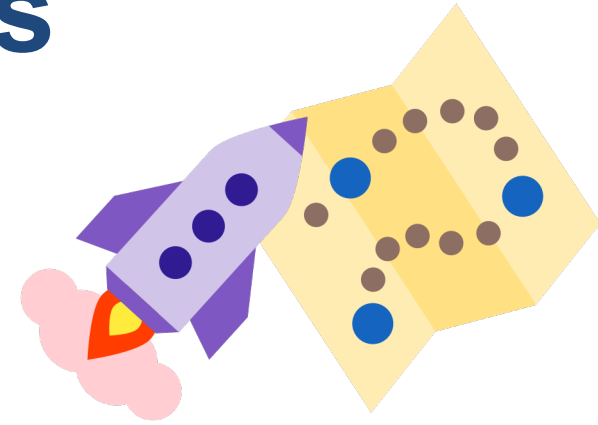

# Strategic Planning Process

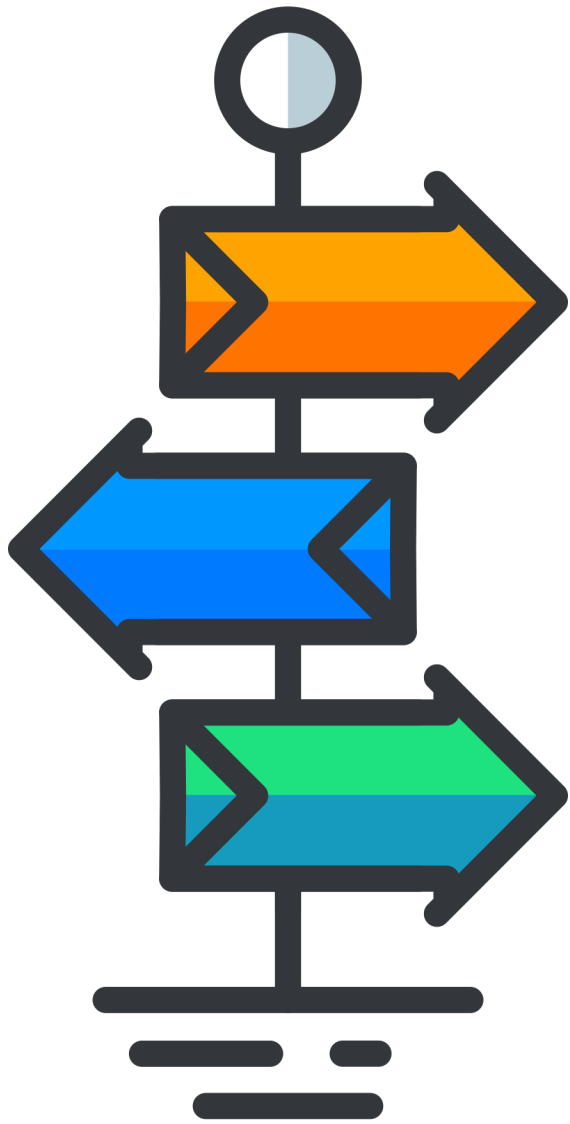

- Evaluate Status Quo
- Continue with Effective Approaches
- Consider New Approaches
- Identify Risks
- Monitor Progress

# Key Questions

- Are we on the right path?
- Are the objectives, goals, and actions still relevant? If so, are they still a priority?
- What external factors could hinder success & how can we mitigate those factors?
- What resources are needed to accomplish the actions and what time frame?
- Have prior efforts been successful moving towards the goal?

If success was a place, how would you know if you got there?

Have we identified actions that can be measured for progress and effectiveness?

# Developing a Toolbox

What tools do we currently use?

What tools could we use?

What are the risks associated with using each tool?

# WHAT ARE THE MOST IMPORTANT ISSUES TO YOU TODAY?

**2018 TRIBAL SELF-GOVERNANCE  
ANNUAL CONSULTATION CONFERENCE**

**30 YEARS OF SELF-GOVERNANCE IN ACTION**  
APRIL 22-26, 2018 | ALBUQUERQUE CONVENTION CENTER - ALBUQUERQUE, NM
