Indian Health Service Reimbursement Rates for 2022¹

December 8, 2022

This brief provides information to Tribes on Indian Health Service (IHS) reimbursement rates—also known as “OMB rates” or “encounter rates”—for calendar year (CY) 2022.

On April 8, 2022, a notice appeared in the Federal Register² announcing that the IHS Acting Director, under the authority of sections 321(a) and 322(b) of the Public Health Service Act, Public Law 83-568, and the Indian Health Care Improvement Act, has approved the following rates for inpatient and outpatient medical care provided by IHS facilities for CY 2022 for Medicare and Medicaid beneficiaries, beneficiaries of other federal programs, and for recoveries under the federal Medical Care Recovery Act. This notice does not include Medicare Part A inpatient rates, as they are paid based on the prospective payment system. Since the inpatient per diem rates set forth in this notice do not include all physician services and practitioner services, additional payment shall be available to the extent that those services are provided. The IHS reimbursement rates for CY 2022 appear below.
